

Complete Cytology services, including examination of fine needle aspirations, body fluids, urines, pulmonary specimens and pap tests, are available Monday through Friday.

- It is recommended that a pathologist be present on fine needle aspirations for adequacy assessment.
- Collection instructions and specimen requirements may be found by searching by the Cytology order codes listed below:

PATH1000 - Cytology-Urine

PATH1001 - Cytology-FNA

PATH1002 - Cytology-Body Fluid/Other

PATH1009 - Cytology-Pulmonary

PATH1021 - Liquid-based PAP Test

Note: For additional questions related to cytology specimens please contact the laboratory Cytology department at 701-323-5442.
